NAUGAHYDE
BRAND FABRIC

NaugaSylk™

**The Original Naugahyde
Made with pride
in the USA**

NaugaSylk with Matrix Technology presents a rich fabric look ideally suited for all types of applications. The pattern combines a deep shimmering and intense saturated colors with a blend of traditional and contemporary colors to offer a broad design appeal to specifiers and consumers.

Advanced BeautyGard® protective top coat finish is produced from environmentally friendly materials and processes and is technically formulated to achieve the highest performance standards.

Durability

When subjected to rigorous abrasion exposure using the industry accepted Wyzenbeek test standard, Naugahyde with Advanced BeautyGard® and **Matrix Technology** exceeds:

- 250,000 cycles (half million rubs) on 1.21 cotton/polyester sateen (standard clothing material).

Serviceability

This product contains an agent to protect it against bacterial and fungal micro-organisms.

Disinfectability

Naugahyde with Advanced BeautyGard® has been formulated to achieve a superior level of disinfectability with disinfectant products containing sodium hypochlorite (common household bleach) diluted 1:10.

Flammability

Formulated to meet the small scale flammability~ test requirements contained in the following specifications:

- California Fire Regulation
- (Bulletin 117, Sec. E)
- Automotive (MVSS-302)
- BIFMA (Screen Test, Sec. 4.6.1.1)
- UFAC Class 1 Rating

Recommended Applications

- Office
- Hotel/Motel
- RV/Van upholstery
- Restaurant/Hospitality
- Health Care
- Auto trim
- Lounge
- Family room
- Hospital
- Living room
- Nursing home
- Dinette/Casual dining
- Dental clinic
- Bed headboards

Cleanability

Cleaning is a breeze with Naugahyde brand fabric and its Advanced BeautyGard® protective finish. While staining and soiling exposures are common to upholstery fabrics, Naugahyde's sulfide stain resistant formulation allows most to be removed using the following methods:

Step 1. Light soiling, the most common of problems.

- A solution of 10% household liquid dish soap with warm water applied with a soft damp cloth.
- If necessary, a solution of liquid cleanser and water applied with a soft bristle brush. Wipe away the residue with a water dampened cloth.

Step 2. Heavy soiling.

- Dampen a soft white cloth with lighter fluid (naphtha) and rub gently. Rinse with a water dampened cloth.

Step 3. For more difficult stains follow these steps.

- Dampen a soft white cloth with a solution of household bleach (sodium hypochlorite); 10% bleach, 90% water~ rub gently. Rinse with a water dampened cloth to remove bleach concentration. Allow 1:10 diluted bleach solution to puddle on the affected area or apply with a soaked cloth for approximately 30 minutes. Rinse with a water dampened cloth to remove any remaining bleach concentration.

NOTE: To restore luster a light coat of spray furniture wax can be used. Apply for 30 seconds and follow with a light buffing using a clean white cloth.

Please Review Carefully

When using strong cleaning agents such as bleach, it is advisable to first test in an inconspicuous area. Other cleaning agents may contain harsh or unknown solvents and are subject to formula changes by the product manufacturer without notice. Should you desire to use other cleaning agents, carefully try them in an inconspicuous area to determine potential damage to the material. Never use harsh solvents or cleaners which are intended for industrial applications. To clean stained or soiled areas, a soft white cloth is recommended. Avoid use of paper towels.

NOTE: Cleaning products may be harmful and irritating to your skin, eyes, etc. Use protective gloves and eye protection. Do not inhale or swallow any cleaning products. Protect surrounding area and clothing from exposure. Use in a well ventilated area. Follow all product manufacturers' warnings. Uniroyal Engineered Products LLC cannot be held responsible for damage or injuries resulting from the use or misuse of cleaning products.

Product Features

- Matrix Technology
- Superior tear strength
- Easily Tailored
- A soft and supple feel
- -20° F cold crack
- 54" wide
- Resistant to scuffs and scrapes
- Produced from environmentally friendly materials and processes
- Made with pride in the USA
