*This term and any corresponding data refer to typical performance in the specific tests indicated and should not be construed to imply the behavior of this or any other material under other fire conditions.

**When used with melamine polyurethane foam or HR polyurethane foam which meets California bulletin #117 requirements. All data regarding Naugahyde 2-200 Flame Blocker fabric was obtained using specific test methods under controlled laboratory conditions to measure performance against specific codes or specifications. While Uniroyal views the product as a significant improvement over existing technology, all organic materials will burn and generate smoke under fire conditions. Upholstered furniture using Naugahyde Flame Blocker and other suitable components may comply with full scale test, Cal TB 133. Test results will vary depending on design and construction.

Specifications

Roll Width	54"
Roll Size	30 Yards
Weight	36.75/Lin. Yd.
Repeat	N/A
Abrasion #8 Cotton Duck	250,000
